

APIC MINNESOTA

APIC-MN Basic Infection Prevention Course April 14—16, 2010

TARGETED AUDIENCE

This interactive course will offer a comprehensive foundation for professionals specializing in infection prevention in all settings of health care including: Acute Care, Ambulatory Care, Home Care, Long Term Care and Public Health.

PARTICIPANTS WHO ATTEND THIS COURSE WILL:

- Examine the elements of an effective infection prevention program and the resources that support them.
- Gain understanding of how evidenced-based recommendations are used to implement best practices to prevent infections.
- Sharpen networking skills with colleagues to share experience and to gain access to additional resources.
- Increase awareness of Centers for Medicare and Medicaid's conditions of participation to qualify for 3rd party reimbursement.
- Expand knowledge of compliance with state and national regulatory standards that impact your facility's licensure or accreditation.
- Improve understanding of the impact of infection prevention strategies to support the mission and goals of your healthcare system.

CONTINUING EDUCATION CREDITS

This program has been designed to meet continuing nursing education credits. A certificate of attendance for **24 contact hours** will be given to each participant at the course conclusion.

INSTRUCTORS

Certified (CIC) preventionists from a variety of settings will provide the instruction. Mary Larweck, RN, MS, CIC, will facilitate the course.

APIC TEXT

Attendees must bring the **APIC Text of Infection Control & Epidemiology**. You will use this resource during the course and in your day-to-day practice. Text is available for purchase from the **APIC Bookstore** at

www.apic.org

**If you not able to obtain the APIC Text for this course, please contact D'Ann Brosnahan—see contact information below.*
